This permit is subject to the following conditions:

1. This application shall be submitted a minimum of three weeks in advance of treatment in order to give Jefferson County Road Department sufficient time to prepare the road surface. Applicant shall display flags at each end of the desired application area.
2. Only dust treatment materials approved by the County Engineer shall be used. Calcium Chloride, Magnesium Chloride, Lignin Sulfate (tree sap), Soy oil (modified for dust control), or other material from an approved source will be allowed. Applicant is responsible for hiring an approved contractor.
3. Applicant is responsible for maintaining a suitable driving surface on the treated section of road. Failure to fill any potholes that develop will result in the scarifying and or blading of the affected area to restore a safe and satisfactory driving surface. This may be done without notice to the applicant.
4. This permit expires on October 15th of the present year and roads are thereafter prepared for winter.
5. The undersigned agrees to accept any and all liability in connection with any accident which might result at the time of application of the dust control, or any accident which might occur at a future date as a result of the treated condition of the road, and hereby agrees to indemnify Jefferson County for any liability which might occur as a result of the treated condition of the road in consideration of Jefferson Counties' permission to the undersigned to treat said road.
